FEASIBILITY STUDIES

Generally a comprehensive feasibility study comprises technical feasibility, market feasibility and financial feasibility. Assignments culminate in a comprehensive report accompanied by detailed financial projections, analysis and recommendation.

STRATEGIC FINANCIAL PLANNING AND MANAGEMENT

The service includes analysis of different option sourcing funds and recommending a corporate structure and business arrangement suitable to an enterprise.

VALUATION AND APPRAISAL OF ASSETS AND BUSINESS

This service is provided to clients seeking to determine the worth of their business or that of a target entity with a view to make a decision to sell their business or buy a target entity. Valuation and appraisal assignment are also undertaken to determine the current market value of the assets of a business as a prelude to various mode of corporate restructuring and also to conform to prudential regulations issued by the State Bank of Pakistan.

PROFIT AND PERFORMANCE MANAGEMENT STRATEGIES

These assignments have specific focus for improving the bottom-line by profit enhancement or curbing causing of losses. Services generally involve a review of the pricing and costing structure with due emphasis on reducing or eliminating wastage of all sorts relevant to an enterprise. Guidance is also given to management in developing proper cost centre, budgets and MIS through a comprehensive report outlining our recommendation for remedial actions.

BUSINESS STRATEGIC PLANNING

Translating a corporate mission statement into reality requires a blue print of strategic steps and milestones envision able in the future. Since strategic planning seeks to strike an optimum utilization of available resources and that too looking into the future, it may rightly be called a visionary's job description. Acumen, institution, scientific knowledge and data combination to form a business strategy plan. And what more, the plan needs periodic reviewing. The more awarded corporate leaders often seek external assistance from consultants at formulation as well as review stages.

CORPORATE RECOVERY AND TURNAROUND SERVICES

Some troubled enterprises need a range of help from advisors through a variety of services which deal with financial restructuring, turnaround strategies, corporate reorganization and coordination with lenders and other financial institutions, to avoid imminent liquidation.

BUSINESS RISK CONSULTING

This enables clients to understand and identify such risk with a view to manage them. Timely assessment of such risks and remedial action to manage them can play a significant role in averting potential danger of disrupting the business.
